Ampco Pumps Company has been providing quality pumps to sanitary, marine and industrial markets worldwide for more than 60 years. Based on our commitment to deliver quality products, excellent customer service and competitive pricing to our customers, we have become the preferred pump provider for some of the most recognized companies in the world.

In 1995 Ampco Pumps Company came under new ownership and shifted its direction to develop product advantages for the sanitary pump industry. That shift in focus has resulted in tremendous growth over the past 20 years.

Ampco Pumps Company's corporate headquarters, manufacturing, and assembly facility is located in Glendale, Wisconsin. Additional facilities include; pump re-manufacturing centers located in Milwaukee, Wisconsin and Stockton, California. Ampco GmbH is a sales, light fabrication and assembly facility located in Herxheim, Germany.

By redefining engineered excellence, Ampco offers the most complete line of pumps, blenders and mixers in the industry.

We invite you to visit our facility in person and allow Ampco to show you how we engineer and manufacture the best sanitary pumps in the world!

PUMPS | BLENDERS | MIXERS

The Premium Pump Company

Ampco Pumps Company offers the most complete line of sanitary centrifugal pumps, positive displacement pumps, dry blenders and powder mixers in the industry. Providing pumps for the sanitary, marine and industrial markets worldwide since 1948, Ampco provides highly engineered advancements, many standard material upgrades, and the best delivery times in the industry.

Significant material upgrades are included in Ampco's competitive pricing, including a stainless steel gearcase on each new positive displacement pump. Ampco keeps a large inventory supply to ensure prompt deliveries; standard pumps are built and shipped within two weeks of ordering. Every pump is tested to customer specifications prior to shipment.

All of Ampco's products are manufactured, assembled and tested in our newly expanded 64,000 square foot facility in Glendale, Wisconsin. The remanufacturing centers located in Milwaukee, Wisconsin and Stockton, California completely remanufacture pumps to "as new" performance and appearance within two weeks. Remanufactured pumps include all new internals, performance testing and a full one-year factory warranty.

Ampco Pumps Company,
"redefining engineered excellence"

The designs of competing pumps have not changed in decades. When material upgrades aren't sufficient, we innovate: The patented ZP3 and patented ZP1+; AC+ centrifugal pumps; LH close-coupled, and high pressure centrifugal pumps are all examples of the Ampco Advantage. We invite you to see for yourself why Ampco Pumps Company is truly the best sanitary pump manufacturer in the world.

AMPCO

APPLIED PRODUCTS

Ampco Applied Products builds custom, highly engineered application solutions for mixing and blending. The AC+ Dry Blender and the PM Powder Mixer blend liquids and powders efficiently and consistently. The SB Series shear blenders are used in challenging applications for consistent quality blending. The QTS Twin Screw pump is designed for gentle handling of soft solids, is self-priming and can perform CIP duties. Additional custom offerings include motor starters and VFD's. Let our experienced application engineers help you build the most efficient blending and mixing solution for your application.

REMANUFACTURED PUMPS

Ampco's remanufacturing program has earned an excellent reputation for quality and delivery since its introduction in 2010. The centralized location minimizes shipping time and expense. Ampco's focused remanufacturing process offers a two-week turnaround time, from customer approval to completion. Remanufacturing will restore your ZP-style pump (models ranging from the 06 to the 520) to its original performance and efficiency and offers significant cost savings. Remanufactured pumps include all standard Ampco upgrades (except a stainless steel gear case), are performance tested before shipment and carry a full one-year factory warranty.
