

LME

High Efficiency Centrifugal Pump

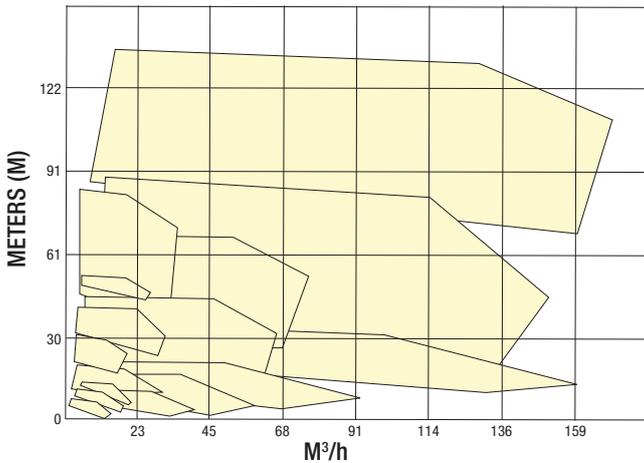

Ampco Pumps introduces the NEW LME high-efficiency centrifugal pump offers 100% interchangeability both hydraulically and part for part with the competing brand. Available in 9 models from size 10 to 550.

Ampco offers the LME with a new front-loading seal design. The front-loading seal offers ease of maintenance and is easily convertible to a double seal.

BENEFITS

- High efficiency design and performance offers gentle product handling capable of handling up to 1200 cps
- Heavy-wall construction, tight manufacturing tolerances, dynamically balanced impellers and a self-aligning shaft minimize vibration and promote longer seal life.
- Standard adapters are made of 304 stainless steel to resist corrosion.
- IEC Motors standard
- Affordable replacement parts are readily available for fast delivery

TECHNICAL DATA

Sizes R10 –V550
 Flow max. 200 m³/h (880 gpm)
 Discharge max. 110 m (160 psi)

SEAL OPTIONS

- Single mechanical seal front loading
- Optional double mechanical seal

DRIVE

- 50Hz or 60Hz
- 1450-2900 1/min
- 1750-3500 1/min
- IEC Motor

MATERIALS

- Body 316L stainless steel
- Adapter 304 stainless steel

CONNECTIONS

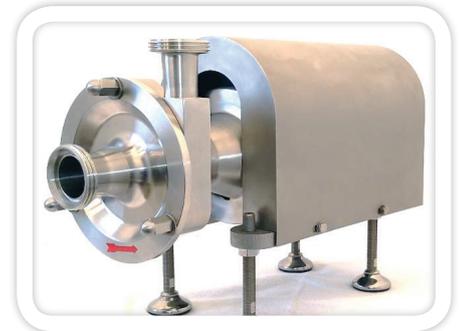

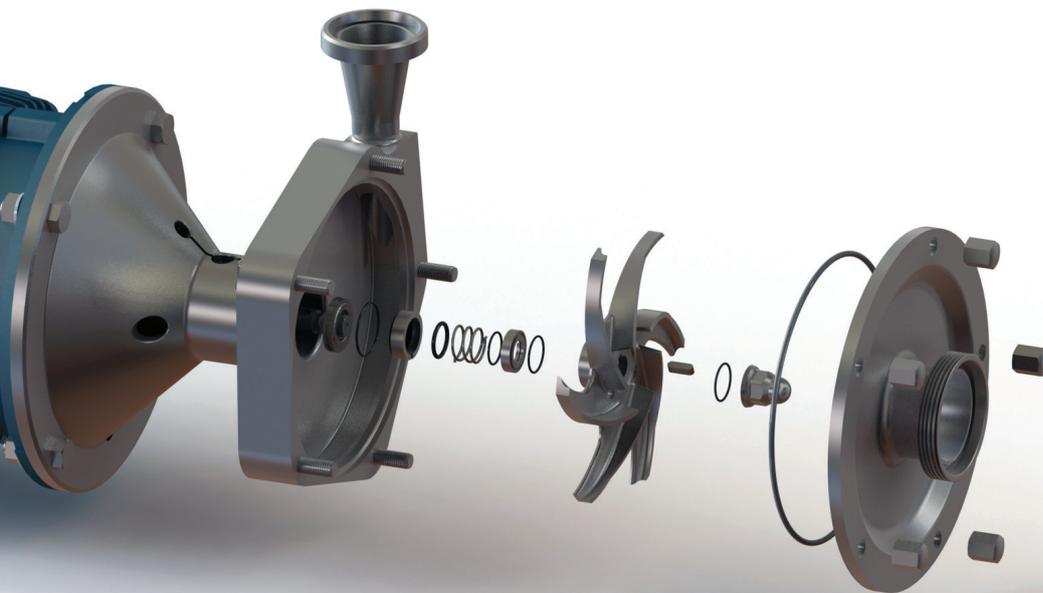

- DIN11851
- Several aseptic standard options

INSTALLATION

- Horizontal
- Close coupled

OPTIONS

Heating jacket, trolley, shrouds, leg assembly, drain, special polish requirements or flushing options for the mechanical seal
